

China's Largest Shipbuilder Selects Electronic Signature Solutions from CIC China

Thursday January 22, 9:02 am ET

Hudong-Zhonghua Shipbuilding (Group) Co., Ltd. Deploys CICC's Products for Workflow Automation

REDWOOD SHORES, Calif., Jan. 22 /PRNewswire-FirstCall/ -- Communication Intelligence Corporation ("CIC") (OTC Bulletin Board: [CICL - News](#)), the leader in biometric signature verification and natural input software and a leading supplier of electronic signature solutions announced today that its 90% owned joint venture Communication Intelligence Computer Corporation, Ltd. ("CICC"), has signed a licensing agreement for its InkTools®, biometric, electronic signature and Office Automation (OA) software with Hudong-Zhonghua Shipbuilding (Group) Co., Ltd. of Shanghai, China ("Hudong-Zhonghua").

Hudong-Zhonghua is the largest shipbuilding company in China. In addition, Hudong-Zhonghua has been listed by the Shanghai Municipality and the State as one of the "Exemplary Enterprises in 863 Hi-tech CIMS Application," for its use of leading edge technologies for its integrated manufacturing systems

Under the terms of the agreement CICC will provide software licenses and integration services for its InkTools software enabling the use of biometric signature verification for improved security, electronic signatures for automation of traditional paper based processes, as well as the company's Chinese handwriting recognition and natural input solutions to increase user efficiency.

"Based on our current office automation needs we selected CICC to provide the added value required to make this solution complete," stated Mr. Su HuaDe, Chief Engineer of the Information Center for Hudong-Zhonghua. "Our company is dedicated to using the latest proven technologies to insure that we maintain our position as an industry leader and by utilizing CICC's software solutions we will increase productivity with the extended capabilities it provides our current IT systems."

"In the past we have experienced significant success in several of the vertical market industries. Now, with this agreement, we have achieved a milestone in our efforts to penetrate the shipbuilding industry within China," commented Jonson Yang, General Manager of CIC China. "We are extremely pleased to establish this relationship and look forward to working with Hudong-Zhonghua to identify follow on deployments including applications within its numerous operating companies that serve various industries."

CICC's InkTools provides enterprises the ability to increase productivity, decrease costs and increase the ease of use for their employees and customers by enabling a more intuitive and natural way for people to interact with today's personal computers using handwriting recognition, document annotation, handwritten email, electronic chops and biometric signature verification. InkTools addresses the growing and diverse base of computer users in China striving to achieve the benefits of the paperless environment with best-of-breed, proven eSignature technology.

CICC is a joint venture between CIC and the Jiangsu Hongtu Electronics Group Co., Ltd. For more information about CIC, CICC or our products, visit our website at <http://www.cic.com>.
