

# Hangzhou Economic & Technological Development Area Signs Licensing Agreement With CIC China

Thursday February 5, 9:00 am ET

## CICC Products Become a Key Component of Government Office Automation Projects in China

REDWOOD SHORES, Calif., Feb. 5 /PRNewswire-FirstCall/ -- Communication Intelligence Corporation (OTC Bulletin Board: [CICI](#) - [News](#); "CIC"), the leader in biometric signature verification & natural input software and a leading supplier of electronic signature solutions announced today that its 90% owned joint venture, Communication Intelligence Computer Corporation, Ltd. ("CICC"), has signed a licensing agreement for its InkTools®, biometric, electronic signature and natural input software with Hangzhou Economic & Technological Development Area, China ("HEDA").

HEDA is a municipal government of Zhejiang Province charged with responsibility for economic and technological development within the region. Located in the center of Zhejiang Province HEDA is a national-class development area approved by the State Council. As part of a larger project to improve the HEDA Office Automation ("OA") solutions it will implement CICC's Inktools product to enable Chinese Handwriting Recognition, document annotation, handwritten email for natural messaging, biometric signature verification and electronic signatures in place of traditional "chops" or "seals."

"We are pleased to work with CICC. The broad, but unique features of its product will allow us to address an equally broad set of automation issues ranging from management approval of documents, with secure biometric signatures, to marking up collaborative documents electronically," stated Mr. Zheng Min, Chief Engineer of the Information Center for HEDA. "Our decision to use CICC's applications as part of our OA project insures that we are providing our users with the best tools available to perform their job assignments in a highly productive and efficient manner."

"This deployment with HEDA reflects our continuing efforts to drive adoption of our products within the government sector in China," commented Jonson Yang, General Manager of CIC China. "The growing number of government backed development areas and their ability to attract global companies represents a significant opportunity for CICC to provide solutions to newly established operating companies and the government agencies supporting them."

CICC is a joint venture between CIC and the Jiangsu Hongtu Electronics Group Co., Ltd. For more information about CIC, CICC or our products, visit our website at <http://www.cic.com> .

### About HEDA

Hangzhou Economic & Technological Development Area is a business start-up and development base with special policies granted by the central government for Hangzhou's technological & administrative innovations. There are 244 foreign ventures, thus far, from 24 countries including the United States, England, Germany, France and Japan. Eighteen multinational companies in the World Top 500 have carried out 29 programs in the development zone. Under the leadership of well known companies such as Motorola, Siemens, Aventis, Panasonic, Toshiba, Mitsubishi, Terumo, Asahi Kasei, Yazaki, Coca-cola and LG, the development zone has founded the bases of five major industries: electronics and machinery, biological medicine, textile and chemical fiber, light industry, food and the Hi-Tech chemical industry. The gross economic output of the zone has increased more than 30% every year which makes it the most high potential business development area in Hangzhou.
