

## **DADE COUNTY LICENSES CIC'S SIGNATURE TECHNOLOGY FOR TRAFFIC COURT APPLICATIONS**

*CIC'S INKTOOLS® PRODUCT ENHANCES COUNTY'S DOCUMENT PROCESSING*

**Redwood Shores, CA, August 15, 2000** - (Nasdaq: CICI) Communication Intelligence Corporation ("CIC"), the leading supplier of natural input and electronic signature solutions, announced today that it has licensed its InkTools® electronic signature product to the Clerk of Courts of Miami-Dade County, Florida for use in the County's Traffic Courts. Judges, clerks, prosecutors, defense attorneys and defendants will now sign court documents using the latest CIC technology.

Dr. Thomas James, Support Manager of the Clerk's SPIRIT system, explained, "Before installation of the SPIRIT optical imaging system, which uses CIC's technology, numerous individual documents needed to be completed by hand, signed, processed, filed and stored for even the simplest of traffic offenses. The Clerk's office replaced all that paper with electronic documents, which are signed by judges, attorneys, and defendants using CIC's InkTools signature capture technology. The system has improved productivity, saved significant dollars, and provided the public, high-quality documents, with appropriate signatures in place." According to Dr. James, SPIRIT is the world's first comprehensive imaging system for processing traffic court cases.

"We are very pleased to be selected for expanded use in this application," commented Jeff Sandler, CIC's Vice President of Marketing & Enterprise Business Development. "It's exciting to work with progressive counties and municipalities that are committed to serving their citizens with the latest advances in cost savings technology. Clearly the Miami-Dade County Clerk's Office is today and will continue to be among the leaders in this respect."

InkTools is a high performance Windows software developers' kit for implementing systems using electronic ink or handwritten signatures. InkTools provides electronic ink capture and display, signature verification and ink compression as well as other algorithms that can add value to a wide variety of document and transaction based applications.

### **About CIC**

Communication Intelligence Corporation (CIC) is the leading supplier of natural input and electronic signature solutions for wireless Internet and e-Commerce applications. Ericsson, Fujitsu, Hitachi, Mitsubishi, National Semiconductor and Symbian. CIC is headquartered in Redwood Shores, California and has a joint venture, CICC, in Nanjing, China. For more information, please visit our website at [www.cic.com](http://www.cic.com).

### **About Dade County**

Miami-Dade County, which serves more than 2 million residents, is the largest "local" government in the southeastern United States. An Executive Mayor and the Miami-Dade County Board of County Commissioners govern the County.

The Miami-Dade County Clerk is a duly elected constitutional officer as mandated by Article V, Section 16 of the Constitution of the State of Florida. The electorate of Miami-Dade County elects the Clerk to a four-year term. The State Constitution, the Florida State Statutes, County Ordinances and Regulations and Judicial Orders establish the responsibilities of the Clerk. In this capacity the Clerk serves as: Ex-Officio Clerk of the Board of County Commissioners, County Recorder, County Auditor, custodian of all county funds, custodian of all records filed with the court.
